COMPANY PROFILE

Swastik Industries A Renowned Name In Manufacturing And Fabricators Of All Types Of Car Cabins For Elevator Industries Since Last 30 Years. Now Under The Expert Guidance & With And Latest Technology We Have Started Vertical Transportation System And its Components. All Over Marked Product Are Manufacture By High Quality Technical Standard. We Use Quality Material As Per Parameters & Standard Set By Elevator Industries.

Since Its Inception The Company Has Progressed Phenomenally And Has Made Substantial Contribution In The Area Of Operation. Organization Is Committed To Serve Its Valued Customers Throughout India Ensuring The System Performance, Quality Of Product And Timely Delivery. We Have High Degree Of Expertise Needed To Deliver Products That Can Assist Our Clients To Achieve Maximum Satisfaction. Our Efficient Supply Chain Management Team Backed By Strong Logistic Support Is Poised To Deliver Consignments At The Client's Doorstep Withing The Stipulated Period Of Time. We Are Committed To Maintain A Long Lasting And Mutually Beneficial Relationship With Our Clients. We Also Have An Efficient Technical Persons After Sales Service Team Who Are Ever Ready To Attend To Any Emergency Call. If Need To We Now Look Forward To A Long And Cherished Business Relationship With Your Esteemed Organizations.

HYDRAULIC PASSENGER HALF KIT

CYLINDER

Hydraulic cylinders are actuation devices That use pressurized hydraulic fluid to produce Linear motion and force. They are used in a Variety of power transfer applications, And can be single or double action.

Blain products have proven their safety and Quality by possessing more than one third Of the global market share and one million Valves in operation in more than 75 countries Worldwide. Since half a century blain Hydraulics has focused and specialized in Flow control valves for hydraulic elevators.

POWER PACK

BASE FRAME

The base frame is the base to fix hydraulic lift cylinder . It supports the fixed part of the frame and is mounted on supporting to lift parts. Base frames are usually made of profile steel, plates through extrusion, or steel tubes through splicing or castings and profile steel through splicing.

As a basic starting point, one person should be able to lift an object weighing up to 51 pounds: If the object is within 7 inches from the front of his or her body. If the object is at waist height and directly in front of the person. If there is no twisting involved. If there is a handle on the object.

ELEVATORS CEILING DESIGNS

Home Lift Gear Less Controller

- Machine Room Less Elevator Integrated Controller.
- Comprehensive control are available for customer who require more than standard, ready-to-mount inverter with ARD ready using 1 PH. 220V UPS.

Power Rating

2.2 KW to 3.7 KW, 1 Phase 220V Gearless

V3F (Two Speed) Controller

- Two Speed for Floor Reed, Two Reed & Four Reed System.
- Smooth & Controlled acceleration & deceleration of main motor.
- Speed dependant braking gives better riding quality.
- Assured leveling accuracy, Irrespective of direction of travel and fluctuation in voltage (10%).
- Safety contactor protection between drive & motor.
- Compatible with any make AC Drive.
